Att: [redacted]
Law Division

23 January 1951

Implementation of the Overseas Communications Plan

1. There is returned herewith your draft of a memorandum from the ADSO to the DD/A requesting authority to limit the procurement of certain equipment for the Overseas Communications Plan to listed makes and models. If it is desired to do this from the technical and policy standpoint, it appears that an adequate legal basis exists. There is attached the suggested wording of the determination by the DD/A required to be made under Administrative Instruction [redacted] 25X1A

2. It is recommended that the papers on this matter be routed to the DD/A via the Chief of Procurement for the latter's comment and concurrence.

2 Encls:

1. Draft of memo to DD/A from ADSO on above subj.
2. Draft of suggested wording by DD/A under AI [redacted]
